

What is the DIDI 500?

The Dream it Do it 500 is a rubber band powered car race for students in grades 6-12.

You will be creating your own rubber band powered car with the help of an instructional video and tips from local engineers.

Design It! Build It! Test It! Race It! Sell It!

You will be judged on your car's performance as well as your creation of a marketing pitch.

Innovation 2020

New twist this year!!

Create your car at school or at home using materials in your kit *plus* whatever you have around the house!! (Exception - no pre-made wheels or motors!)

After designing, building, and testing your car....

Video your car while racing!

Calculate the speed!

Create a commercial

Submit your video!

Submit by January 16, 2021
