

STEM WARS: FORENSIC SCIENCE CHALLENGE
Middle School and High School Session

Ready to put your forensic science skills to the test? The STEM WARS science challenge this year is in the form of a mini mystery and trivia challenges that test science skills (powers of observation, problem-solving, etc). Teams of 3-4 students will complete multiple challenges and combine these scores to figure out the overall winner. The Forensic Science Challenge will be broken up into a middle school and high school session to crown a winner per session.
